

FSA Single Phase hybrid inverter

HES Single Phase hybrid Inverter ,integrated with MPPT charge controller, and industrial frequency Pure sine wave . Install in small space, less connecting wire, more safe and reliable etc.

MPPT Solar charge controller adopts MPPT(Maximum Power Point Tracking)algorithm and obtain full solar power. It can charge different kinds of batteries with wide PV input . Three-stage charging increase battery lifespan effectively.

Widely use in the place where no public grid ,or not enough grid power available .

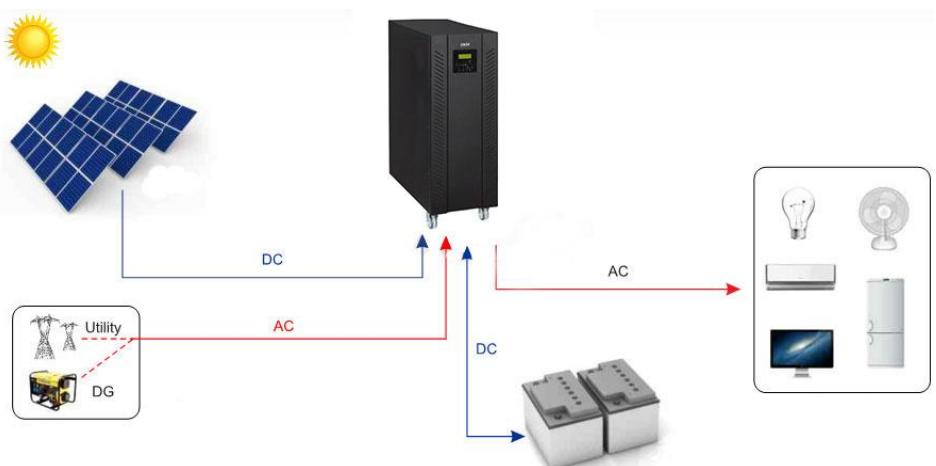

Features

- Pure Sine wave inverter built in MPPT Three-stage charging technology
